26 JUL 1973

MEMORANDUM FOR: Deputy Director, Policy and Management

SUBJECT : Action Plan Amendment

1. The Action Plan for Objective 22 requires another amendment. The Security Records Division previously advised that the implementation date of Stage I of CAPER-OS had been moved back from 18 June 1973 to 9 September 1973 by the SIPS Task Force due to technical problems.

2. A reorganization of the Office of Security now necessitates modifications in the CAPER-OS program. Until these modifications can be made by the Office of Joint Computer Support and a new implementation date established, the chronological benchmarks set out in the Action Plan for Objective 22 cannot be appropriately revised. This will be accomplished as soon as a new implementation date is established for CAPER-OS.
